

2.4/5 GHz 6 dBi MIMO Patch Antenna

TerraWave's 2.4/5 GHz, 6 dBi Patch Antenna is designed to operate with Aruba's new 802.11ac access point, the AP 224, along with the Aruba AP 114 and 134. The antenna includes three 36" leads that are terminated with RPSMA Plug connectors. With dual-band leads this MIMO Patch Antenna can support demanding applications. Utilizing a ruggedized radome this antenna can safely function in challenging outdoor environments where exposure to dust and moisture are present. Included is an articulating mount, allowing for easy installation. *Every TerraWave antenna is covered by the company's two-year TerraNet warranty program.
